

Dropside Options

Dropside Options

We understand that there are different ways that patients must be transported and procedures performed. Safety comes first, which is why we've developed a selection of side rail options, to ensure you can have the right outcome for your department's requirements.

Dropside Options

Dropside Padding

Dropside Options

There are a range of dropside options available to customise any stretcher to suit your special requirements.

Key Benefits

- Multi-riser dropside options for closer spacings
- Split fold option for safer patient access
- Horizontal rail designs for longitudinal support
- Flush folding option for mattress transfer or x-ray
- Mid position lock option for easier patient access

Dropside Options

16 riser dropsides

Close up the spacing's to 100mm centers with extra risers for a safe side rail for patients requiring extra support.

Choice of folding from head end towards foot or foot end towards head (pictured).

7 riser dropsides

Close up the spacing's to 250mm centers with extra risers for a safe side rail for patients requiring extra support.

Choice of folding from head end towards foot (pictured) or foot end towards head.

Split folding dropsides

Enhance access to either the head or foot end of the patient without compromising safety.

Fold all four sections down together or independently. Supplied standard with mid-position catches.

Flush folding dropsides

Fold down the dropsides to flush with trolley top, allowing slide transfer of mattress or horizontal x-ray.

Uses the slim aluminium handrail section. Choice of folding from head end towards foot (pictured) or foot end towards head on any dropside riser configuration.

Mid-position lock

Pair of catches with a mid locking position for special access to the patient.

Choice of folding from head end towards foot (pictured) or foot end towards head. Supplied standard on split dropsides.

Deluxe dropsides

Full length glide-away siderails that provide horizontal support and a zero transfer gap.

Why Buy

We understand that there are different ways that patients must be transported and procedures performed. Safety comes first, which is why we've developed a selection of side rail options, to ensure you can have the right outcome for your department's requirements.

- 16 riser dropsides - MPT-CA-16RD
- 7 riser dropsides - MPT-CA-7RD
- Split fold dropsides - MPT-CA-SDS
- Flush fold dropsides - MPT-CA-FFD
- Mid position lock - MPT-CA-CMP
- Deluxe dropsides - MPT-C-D

Dropside Padding

Provide extra protection for recovering patients with a selection of padded bumper systems for stretcher dropside.

Key Benefits

- Stiff board backed bumper system
- Lift and roll feature allowing use without removal
- Quick install pocket system
- 25mm high density padding
- Welded cover materials for easy cleaning
- Sizes to fit any dropside style

Dropside Padding

Padded Bumpers

Stiff plastic backed bumpers with welded stretch padding that resists high limb force.

Unique access

Lift and roll to the outside of the dropside, allowing raise and lowering without removal.

Wall hanging point incorporated for easy storage.

Padded Pockets

Tough vinyl padding on both sides of the dropsides protecting both the patient and carer.

Removable design

Unclip and quickly lift off for unrestricted patient access and easy cleaning.

Sizing options

Both bumpers and pockets can be supplied as full length versions or to fit different dropside styles.

Why Buy

A recovering or restless patient can cause themselves serious harm on the metal risers and rails of standard dropsides. We have developed some ways for the carer to quickly and easily increase the level of protection and provide a soft, padded surface for patients limbs. Our board system can be flipped to the outside of the stretcher allowing the dropsides to be raised and lowered without having to remove the bumpers from the trolley. Pockets can slide on over the dropside which are quick to use, however must be removed to lower the sides.

Product Codes

- Padded Bumpers (pair); MPT-CA-PDB-P
- Padded Pockets (pair); MPT-CA-PDB-D
