

Contour Energy

A transport chair with ZERO effort, 4-way power drive reducing the risk of strain during patient transport.

Key Benefits

Ergonomics & intuitive: Drive effortlessly in any direction with only the slightest of touch, paired with perfect positioning of the drive controls for ease of use.

Easy access: The large footplates offer generous support to your patients and lift quickly for clear egress.

Powerful movement: A rotating electric drive wheel provides excellent traction, while center steering makes patient transport easier over longer distances.

Why Buy?

Take all the human effort out of pushing and maneuvering chairs with an intuitive and intelligent drive system designed for easy use by any operator. Natural movement controls the speed and direction of the chair with the ability to stop very quickly by pulling back. Help prevent the most common carer strain injuries by taking the back twist out of moving heavy weight forwards, backwards and sideways. Patients are positioned comfortably with a gentle recline and feet fully supported. We've taken care with every aspect of design to ensure comfort and efficiency for both the patient and carer. Customise for a wide range of healthcare areas with relevant accessories.
