Fair Commente Mattress Is the mattress or or punctured	Service Date		Service Person					
Is the mattress torn or punctured Is the foam firm and intact Is the mattress clean underneath Handrail / Bump Strips Is the extrusion won or gouged Trolley End Rails Are the end rails bent or broken Backrest Operation Is the backrest intact and operating correctly Are the backrest stringe bushes worn Is the backrest thinge bushes worn Is the backrest thinge bushes worn Is the backrest operation Do the dropsides have excessive side movement Are any dropside arms bent Are any dropside arms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any padals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all botts nuts and pins tight and in place Are all springs returning properly Is ave all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working			Pass	Fail	Comments			
Is the foam firm and intact Is the mattress clean underneath Handrail / Bump Strips Is the extrusion worn or gouged Trolley End Rails Are the end rails bent or broken Backrest Operation Is the backrest intact and operating correctly Are the backrest lindet and operating correctly Is the backrest lindet and operating correctly Are the backrest lindet selesse (CPR) working Is the backrest lindet selesse (CPR) working Do the dropsides have excessive side movement Are any dropside arms bent Are any dropside arms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley brakes work correctly Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Botts Pins and Springs Are all Botts nuts and pins tight and in place Are all springs returning property Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent	Mattress							
Is the mattress clean underneath Handrail / Bump Strips Is the extrusion worn or gouged Trolley End Rails Are the end rails bent or broken Backrest Operation Is the backrest intact and operating correctly Are the backrest inge bushes worn Is the backrest quick release (CPR) working Dropside Operation Total operation Do the dropsides have excessive side movement Are any dropside amms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors La ray castor visibly damaged Do the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Botts Pins and Springs Are all bydraulic or electric componants safe Botts Pins and Springs Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent	Is the mattress torn or punctured							
Is the extrusion worn or gouged Trolley End Rails Are the end rails bent or broken Backrest Operation Is the backrest intact and operating correctly Are the backrest intact and operating correctly Is the backrest fluinge bushes worn Is the backrest fluinge bushes worn Is the backrest quick release (CPR) working Dropside Operation Do the dropsides have excessive side movement Are any dropside arms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Is the foam firm and intact							
Is the extrusion worn or gouged Trolley End Rails Are the end rails bent or broken Backrest Operation Is the backrest intact and operating correctly Are the backrest linge bushes worn Is the backrest linge bushes worn Is the backrest quick release (CPR) working Dropside Operation Do the dropsides have excessive side movement Are any dropside arms bent Are any dropside arms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors La sany castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the Tolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent	Is the mattress clean underneath							
Trolley End Rails Are the end rails bent or broken Backrest Operation Is the backrest intact and operating correctly Are the backrest quick release (CPR) working Dropside Operation Do the dropsides have excessive side movement Are any dropside arms bent Are the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Brake I Steer Pedals Are all polits in us and pins tight and in place Are all polits nuts and pins tight and in place Are all botts nuts and pins tight and in place Are all botts nuts and pins tight and in place Accessories Is the IV drip hanger bent	Handrail / Bump Strips							
Are the end rails bent or broken Backrest Operation Is the backrest intact and operating correctly Are the backrest thinge bushes worn Is the backrest quick release (CPR) working Dropside Operation Do the dropsides have excessive side movement Are any dropside arms bent Are any dropside arms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the tolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV drip hanger bent Is the IV drip hanger bent Is the IV extension lock working	Is the extrusion worn or gouged							
Backrest Operation Is the backrest intact and operating correctly Are the backrest hinge bushes worn Is the backrest quick release (CPR) working Dropside Operation Do the dropsides have excessive side movement Are any dropside ams bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Trolley End Rails	Trolley End Rails						
Is the backrest intact and operating correctly Are the backrest hinge bushes worn Is the backrest quick release (CPR) working Dropside Operation Do the dropsides have excessive side movement Are any dropside arms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV drip hanger bent Is the IV extension lock working	Are the end rails bent or broken							
Are the backrest hinge bushes worn Is the backrest quick release (CPR) working Dropside Operation Do the dropsides have excessive side movement Are any dropside arms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the Itolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV drip hanger bent Is the IV drip hanger bent Is the IV extension lock working	Backrest Operation	Backrest Operation						
Is the backrest quick release (CPR) working Dropside Operation Do the dropsides have excessive side movement Are any dropside arms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in Britanian and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all botts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV drip hanger bent Is the IV extension lock working	Is the backrest intact and operating correctly							
Do the dropsides have excessive side movement Are any dropside arms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all botts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Are the backrest hinge bushes worn							
Do the dropsides have excessive side movement Are any dropside arms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Is the backrest quick release (CPR) working							
Are any dropside arms bent Are the catches locking in safely Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Dropside Operation							
Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Do the dropsides have excessive side movement							
Bellows / Plastic Cover Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Are any dropside arms bent							
Have the plastic coverings been cracked or torn Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Both Is the IV drip hanger bent Is the IV extension lock working	Are the catches locking in safely							
Brake / Steer Pedals Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV drip hanger bent Is the IV extension lock working	Bellows / Plastic Cover							
Are any pedals bent broken or loose Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Have the plastic coverings been cracked or torn							
Castors Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Brake / Steer Pedals							
Is any castor visibly damaged Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Are any pedals bent broken or loose							
Do the trolley brakes work correctly Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working								
Does the trolley steer wheel lock in High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Is any castor visibly damaged							
High / Low Operation Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Do the trolley brakes work correctly							
Is the trolley raising and lowering smoothly Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Does the trolley steer wheel lock in							
Are all hydraulic or electric componants safe Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	High / Low Operation							
Bolts Pins and Springs Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Is the trolley raising and lowering smoothly							
Are all bolts nuts and pins tight and in place Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Are all hydraulic or electric componants safe							
Are all springs returning properly Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Bolts Pins and Springs							
Have all moving parts been lubricated with grease Accessories Is the IV drip hanger bent Is the IV extension lock working	Are all bolts nuts and pins tight and in place							
Accessories Is the IV drip hanger bent Is the IV extension lock working	Are all springs returning properly							
Is the IV drip hanger bent Is the IV extension lock working	Have all moving parts been lubricated with grease							
Is the IV extension lock working	Accessories							
	Is the IV drip hanger bent							
Are any extra options damaged	Is the IV extension lock working							
	Are any extra options damaged
